

CheckMy Driver by Modives Integration

Updated on Mar 18, 2026 • Published on Dec 15, 2025

🕒 3 minute(s) read • 🎧 Listen

> Article summary

DealerCenter has partnered with CheckMy Driver by Modives to introduce real-time insurance verification and ongoing insurance monitoring for BHPH customers. This integration will allow BHPH to verify their customer's current insurance status and coverage level and also enable active monitoring so that the dealer is notified of any changes that are made to the customer's current insurance status and/or coverage levels.

1. CheckMy Driver Activation

DealerCenter users can add the CheckMy Driver product from the Product Subscription option in the Admin section of the DealerCenter left-navigation menu.

CheckMy Driver will be available for selection in the Pay-Per-Use section.

Pay-Per-Use		
Adverse Action Automation	\$1.29/ use	Add to Cart
Bankers Systems Forms	\$3.00/ use	Subscribed
Check My Driver ⓘ	\$2.25/ use	Add to Cart
DC eContracting (select states)	\$3.00/ use	Subscribed
FedEx Labels	\$14.99/ use	Subscribed
LAW Contracts	\$2.25/ use	Add to Cart
NMVTIS ⓘ	\$0.25/ use	Subscribed

The pricing breakdown for CheckMy Driver is as follows:

- \$2.25 per verification request sent to a customer
- For CheckMyDriver Monitoring, it will be \$2.25 per verification request that Monitoring is enabled for each customer.

Once the product has been added to the dealer's account, a CheckMy Driver representative will contact the dealer to begin the onboarding process.

Once the dealer is signed up with CheckMyDriver, they will received a confirmation email

DEALER CENTER

Hi <Dealer Name>,

Congratulations on signing up with CheckMy Driver provided by DealerCenter!

Here is a helpful overview to get started. You can send your first verification individually and also can bulk load and send verification requests to all your existing customers through the current process.

CheckMy Driver will send an SMS and Email message to the customer with a link to begin the verification process. The customer will first be asked to establish a user ID and password with CheckMy driver. Once the customer's CheckMy driver ID is created the customer will select their current insurance carrier and enter their credentials for that carrier.

Do you have auto insurance?

Yes, Select insurance company

Who is your auto insurance provider?

Search for your insurance provider

State Farm

<https://www.statefarm.com>

Allstate

<https://www.allstate.com>

USAA

Verifying

We are verifying your insurance policy is Active, Accurate and Adequate.

Did you know...

Color counts: Your car's color can actually affect your premium. Red cars? Risky drivers, say insurers. Silver and beige? Cool and calm cruisers, apparently.

CheckMy Driver will validate the customer's insurance information with the carrier and that information will be populated within the insurance window of the BHPH account.

CheckMy Driver Monitoring will provide the dealer with automatic updates when the customer makes a policy change, cancellation, or coverage limit change to their current insurance. When monitoring is enabled, CheckMy Driver will make run a check on the customer's current coverage levels every two weeks. The dealer will be notified via email that an update has been received, and the new coverage information will be updated within DealerCenter.

If the customer's insurance was not previously verified, the verification process will be run before monitoring can be enabled

4. Check Anytime

The Check Anytime button will make an on-demand call to check the customer's current coverage levels. This can be used to receive updated information on previously verified customers and/or receive updates outside of the two-week monitoring cycle.

A new CheckMy Driver Dashboard report has also been added to allow dealers to view more granular information about previous verifications and monitoring updates.

The CheckMy Driver dashboard can be found in the Management Reports and BHPH Reports

6. Bulk Enablement of Monitoring for Existing Customers

DealerCenter users can enable ongoing insurance monitoring for multiple accounts at a time by using the Bulk Actions option in the BHPH Insurance Status report.

The user will select the customers for who they would like to enable monitoring and use the bulk actions to select the Enable Ins. Monitoring action.
